Julie Friedeberger's journey through cancer in 1993, and describes how the practices and the philosophy of Yoga helped her through that difficult but transformative experience.

## A Visible Wound

The V.A.C.® Therapy System is a medical device that promotes wound healing by applying negative pressure (a vacuum) to your wound. Your wound is covered by a dressing that protects the injured area. The V.A.C.® Therapy System works by bringing together your wound edges, removing blood and fluid that may contain infectious substances, and promoting new tissue growth, also called granulation.
