Most of the documentation included in Debian was written for GNU/Linux in general. There is also some documentation written specifically for Debian. These documents come in these basic categories: manuals; HOWTOs; FAQs; other shorter documents; Manuals. The manuals resemble books, because they comprehensively describe major topics. Manuals specific to Debian

Debian - Documentation

Debian Documentation For users. At the moment, Debian doesn't have a System Administrator manual. For contributors. Most documentation for Debian-developer (and package maintainer) are available from www.debian. Official Websites of the Debian Project. On Debian.org the official Debian site, you ...

Debian - News - Updated Debian 10: 10.7 released

Debian is a free operating system (OS) for your computer. An operating system is the set of basic programs and utilities that make your computer run. Debian provides more than a pure OS: it comes with over 59000 packages, precompiled software bundled up in a nice format for easy installation on your machine. Read more...

Debian - The Universal Operating System

The resolvconf program is optional on a Debian system. The configuration file resolv.conf contains information about the nameservers to be used by the system. However, when multiple programs need to dynamically modify the resolv.conf configuration file they can step on each other and the file can become out-of-sync.

Documentation | Debian Sources

Raspbian Documentation For now, the documentation will be a little random while we build up bits of information. Hopefully it will only be a little while until enough documentation is gathered to be organized into some logical manner.

Raspbian Documentation - Raspbian

udev was created to respond to hotplug type of events. Much documentation refers to creating devices in response to new devices that have appeared. But, udev is more general; it can run arbitrary userspace commands in response to a new device appearing - or to whatever events it receives from the kernel. The times when udevd is active are:
