The theory of duality in production economics is an important concept that connects the production function models to the cost function models by a maximization or minimization technique. The cost function is derived from the production function by selecting the combination of factor quantities that minimize the costs when

concepts, theorems or structures, in a one-to-one fashion, often (but not always) by means of an involution operation: if the dual of  $A$  is  $B$ , then the dual of  $B$  is  $A$ . Such involutions sometimes have fixed points, so that the dual of  $A$  is  $A$  itself. For example, Desargues' theorem is self-dual in this ...
