Investment appraisal is the analysis done to consider the profitability of an investment over the life of an asset alongside considerations of affordability and strategic fit. Project funding is the means by which the money required to undertake a project, programme or portfolio is secured and then made available as required. Funding for standalone projects may be via a single source or through multiple investors.

Quantitative influences on investment appraisal The investment appraisal comes up with a result, but how is a decision made? Many firms set what are known as "investment criteria" against which they judge investment projects. A problem with the three main investment appraisal methods is that they can generate seemingly contradictory results.

Capital Budgeting: Financial Appraisal of Investment Projects. Don Dayananda, Richard Irons, Steve Harrison, John Herbohn, Patrick Rowland. Cambridge University Press, Oct 17, 2002 - Business & Economics - 321 pages. 1 Review. This book explains the financial appraisal of capital budgeting projects.

~~Capital Budgeting : Financial Appraisal of Investment Projects~~
Investment appraisal is a way that a business will assess the attractiveness of possible investments or projects based on the findings of several different capital budgeting and financing techniques. For traders, it is a form of fundamental analysis as it can help identify long-term trends as well as a company's perceived profitability.

~~What is Investment Appraisal? | Definition and Techniques ...~~
Appraisal is the analysis of a proposed project to determine its merit and acceptability in accordance with established criteria. This is the final step before a project is agreed for financing. It checks that the project is feasible against the situation on the ground, that the objectives set remain appropriate and that costs are reasonable.
