Priority Finger Mode. In Kinesiology we can use what we call a 'finger mode' to determine whether something is a priority for the body to be correct now – and whether the body is able to maintain the correction if it is fixed first.

What is priority finger mode in kinesiology? – The Academy ...

So what is a finger mode / hand mode **Practical Approach: An active Finger mode is indicated when the thumb on a spot on a finger is activated while we test the IM (indicator muscle). When the combination of fingers touching (finger mode/hand mode) turns off a IM, then we have a unbalance on that spot (see Figure 1).**"

Finger modes | hand modes | hand positions | kinesiology ...

A language system based on hands positions (like sign language or like mudras), whereby particular fingers touches specific points on other fingers while a muscle test is performed. The originator of the Hand Modes idea was Dr. Alan Beardall, DC, founder of Clinical Kinesiology and introduced it to Applied Kinesiology (AK) and Energetic Kinesiology (EK) by Dr Sheldon Deal, DC.

how to use kinesiology with your fingers - YouTube

The focus in Specialised Kinesiology has shifted greatly to 'natural' intelligence versus 'artificial' intelligence. While lists and checking 'by the number' works, it relies heavily on 'artificial' intelligence. A better option is to invoke the natural intelligence of our neurology through the use of finger-modes.

Kinesiology Finger Modes - static-atcloud.com

The Finger Modes, the modern derivative of the Mudra, in the hands of a trained Kinesiologist, are both an assessment tool AND a healing tool. Hand modes accomplish this by uniting various electrical/nadi terminals in the fingers, that in turn activate different areas of the brain, as well as the sympathetic and parasympathetic nervous systems.

Modern Day Mudras: Finger Modes – The Power House of ...

Applied Kinesiology is a form of chiropractic introduced in 1964 by George Goodheart, D.C. It is a diagnostic method for determining health status through muscle testing and also a therapy wherein the practitioner applies light finger-tip massage to pressure points on the body or head in order to stimulate or relax key muscles.
