Welcome to Marine Science: The Dynamic Ocean. This is the first, major K-12 Marine Science high school course, designed for high schools. The science course is STEM integrated and meets Next Generation Science Standards (NGSS). The course can meet a state lab requirement, but does not have to do so. Studying Earth's most visible feature—the ocean—is a great way to learn science, technology, engineering and mathematics (STEM) content and processes.

Marine Science: The Dynamic Ocean — U.S. Satellite

Marine Science, The Dynamic Ocean is a new high school course that’s a tsunami wave above the rest! Meets Next Generation Science Standards and addresses Common Core Select a recorded orientation session or to be notified of upcoming sessions
