Demand, Supply, and the Supply-Demand relationship. This principle of microeconomics drives any economy and market. We buy some items almost every day, be it food-related, medicines, electronic accessories, and several others. This is 'demand' (not that we are too demanding in our approach). It originates from us.

This course will provide you with a basic understanding of the principles of microeconomics. At its core, the study of economics deals with the choices and decisions we make to manage the scarce resources available to us. Microeconomics is the branch of economics that pertains to decisions made at the individual level, such as the choices individual consumers and companies make after evaluating resources, costs, and tradeoffs.
