Section Three provides guidance for the development of programme evaluation plans, including how to ensure comprehensive evaluation coverage, costing the plan, the plan review and approval process, and the process for revising and updating an evaluation plan.

~~United Nations Development Programme—Evaluation~~

Evaluation of the project involves a comprehensive assessment of the given project, policy, program or investments, taking into account all its stages: planning, implementation, and monitoring of results. It provides information used in the decision-making process. Evaluations can be divided from the point of view of the project goals (evaluation of action in relation to the objectives, national or community) and operational aspects (monitoring of project activities).

~~Project evaluation methods—CEOpedia—Management online~~

Announced by Dr. Frieden in Nov. 2012, the evaluation guidelines are a set of recommendations to inform evaluation planning and implementation. The goal is to increase the use of evaluation data for continuous program improvement Agency-wide. While the emphasis is on CDC practice, most of these recommendations, when implemented, will improve the ways in which partners, grantees, and community-based organizations evaluate and improve their program efforts as well.

~~Program Evaluation for Maximum Health Impact: Guidelines—~~

The guidelines aim to provide a basis for an update of ADB's project administration instructions (PAI), which currently govern the preparation by regional departments of self-evaluation project completion reports (PCRs) and technical assistance (TA) completion reports (TCRs).5 Separate guidelines govern ADB-financed private sector operations (also called nonsovereign operations).6
