Featuring eight gorgeous animals (cheetah, rhino, elephant, giraffe, gazelle, zebra, gorilla, and lion), Safari: A Photicular™ Book is full of the information you'd expect to hear from a real safari tour guide about each animal - plus an evocative first-person essay about the safari experience by nature writer and safari traveller, Carol Kaufmann.

Safari: A Photicular Book: Amazon.co.uk: Dan Kainen: Books

While it isn ' t a large book, it is thick. It contains eight remarkable photicular pages, each of an animal one might encounter while on a safari on the Masai Mari in Kenya. Each time you turn the page you encounter another animal, and the animal moves. The lion is running toward you and you can control the speed.

Safari: A Photicular Book by Carol Kaufmann

Photicular™ technology is like a small film clip on the page. Trace the fluid movements of a cheetah at 60mph, a rhino splashing in water or the flight of a gazelle from predators. Complete with an essay about the safari experience from nature writer Carol Kaufmann, this book includes everything you would expect to learn on a safari tour.

Received my Safari Photicular book quickly and I totally love it! In fact, not only am I fascinated with it, my husband and four year old grandson love it too. It feels like you're actually watching the animals run in the wild. I wish I could afford to actually see them in the wild, but for now Nat Geo and books like this fill the void.
