ISO/IEC 27001 Statement of Applicability - ibCom
The statement of applicability is found in 6.1.3 of the main requirements for ISO 27001, which is part of the broader 6.1, focused on actions to address risks and opportunities. The SoA is therefore an integral part of the mandatory ISO 27001 documentation that needs to be presented to an external auditor when the ISMS is undergoing an independent audit e.g. by a UKAS audit certification body.

ISO 27001:2013 - The Statement of Applicability (SoA)
Completion of the statement of applicability (SoA) is a requirement of the ISO: a document you have to develop, prepare and submit as part of your steps toward best practice data management systems. There are no exact rules for developing your SoA as ISO 27001 recognises that details of cyber security are unique to your business ' requirements, however you must include:
