Improving Educational ...

Improving education is a huge issue for our society. Test scores, our perceived performance against different nations, and different elements have pushed education to the bleeding edge of national legislative issues, directly behind healthcare reform. Technology can be utilized to improve teaching and learning and help our students be successful.

Enhancing assessment and feedback with technology: a guide ...

Educational technology (commonly abbreviated as EduTech, or EdTech) is the combined use of computer hardware, software, and educational theory and practice to facilitate learning. Educational technology creates, uses, and manages technological processes and educational resources to help improve user academic performance.
