crisis, but how has the COVID-19 pandemic affected the use and importance of urban green and open spaces? Are they perceived or used differently during this time? Who has access historically, but also during COVID-19?

~~Home — The Nature of Cities~~

The Nature of Cities is an international platform for transdisciplinary dialogue and urban solutions. We curate the sharing of diverse, transformative ideas about cities as ecosystems of people, nature, and infrastructure. We are committed to the design and creation of better cities for all: cities that are resilient, sustainable, livable, and just.

~~About The Nature of Cities — The Nature of Cities~~

The Nature of Cities offers the ecological component often missing from cultural analyses of the city and the urban perspective often lacking in environmental approaches to contemporary culture. By bridging the historical gap between environmentalism, cultural studies, and urban experience, the book makes a statement of lasting importance to the development of the ecocritical movement.

We are committed to the design and creation of better cities for all: cities that are resilient, sustainable, livable, and just.

~~What is The Nature of Cities? — The Nature of Cities~~

The service by which the city earns its livelihood depends on the nature of the economy and of the hinterland. Cities are small or rare in areas either of primitive, self-sufficient economy or of meager resources. As Adam Smith stated, the land must produce a surplus in order to support cities. This does not mean that all cities must be sur-

~~The Nature of Cities — JSTOR~~

The mission of The Nature of Cities is to curate joined conversations about urbanism across ways of knowing and modes of action. We create transdisciplinary, publicly available, and widely disseminated programs, events, knowledge, and engagements for green city making. We strive for cities worldwide that are resilient, sustainable, livable, and just.

~~Nature of ...~~

We know in fact that we need daily contact with the natural environment and we have to overcome this sort of bifurcation that cities and nature can't coexist. Part of our separation from nature is that we thought nature is something "over there" and where we live is not nature, and especially if we live in a cities.
