The Time-Crunched Cyclist: Race-Winning Fitness in 6 Hours ...  
Throughout the Time-Crunched Cyclist books, I have argued against traditional base training because it is incompatible with the busy lifestyles of so many athletes. Traditional low-intensity base training works, but very few full-time working parents can increase training time to 12-20 hours/week for 2-3 months.

This revised and expanded third edition is longer still because I've added material to address readers' requests and to include new areas of sports science and nutrition that impact a time-crunched cyclist's performance. To help you move through the content more quickly, the book is divided into four parts.
